

LOOKBOOK

DESIGN INSPIRATION

 *Nightingale*

BE GOOD TO THE PLANET.

Sitting down doesn't mean being stagnant. Innovate, improve, progress.

LANDFILL SUCKS

— 0% of our waste goes to landfills.

Each person directly impacts 3 other people in their daily life — **make a positive impact.**

If you notice a gap, **DON'T WAIT** for someone else to bridge it.

BE A PIONEER.

Test everything to the **BREAKING POINT.**

That's how you make it

STRONGER.

ETHICAL BUYING

is a **commitment**—not a catchphrase.

Care about

people, the planet, your work, yourself. Life is about making an impact, not a fortune.

GET INVOLVED.

Make personal connections—not just business ones.

Take Risks:

the only thing that should be in your 'comfort zone' is your chair.

Respect your body:

exercise, eat well, laugh with friends, choose ergonomic chairs.

Never stop learning.

We're into research panels, CEU courses, and innovations at **Nightingale U.**

Have a purpose and find others who share it.

The best results are **driven by collaboration.**

Quality matters.

Never settle for less.

Make mistakes: they are a part of growth.

Take a holistic approach: nothing exists in a vacuum.

Take vacations & mental health days.

Go out to dinner. Wake up early to watch the sunrise. There's more to life than working.

There's a story behind almost everything in life. **Tell it.**

we care.

This is our story.

We are a contract seating manufacturer that puts purpose before profit. By collaborating with top designers, engineers, and research teams, we create quality ergonomic products that are good for your body and the planet. Our designs prove you don't have to choose between aesthetics and comfort.

The best results come when employees are empowered, inspired, and have a good work-life balance. Whether it's flexible hours, maternity/paternity leave, vacation, sick, mental health, or just 'me' days, we offer a variety of work options to ensure our people are taken care of.

Because we believe life is about making an impact, not a fortune, our designs aim to stir a response in the user—whether it be inspiration or simply “this chair is comfy!” Our factory is powered by wind and solar energy, and everything we touch gets reused or repurposed in adhering to our 'landfill sucks' policy of zero-waste. We support the Urban Beehive Project in hopes that these incredibly important insects can keep buzzing around, pollinating 90% of food crops worldwide.

Our fabulous team of employees are committed to making a difference: we care about people, the planet, and quality. By working together to brainstorm, create, and improve, we produce durable, design-forward chairs.

[nightingalechairs.com](https://www.nightingalechairs.com)

TESTING FACILITY

In our state-of the art testing facility, we test all elements of our products to the breaking point, then work to make them stronger. Our Engineering and Quality control team works constantly to stretch the limits of what is possible in modern seating. Because of our stringent testing procedures, Nightingale is pleased to offer our lifetime limited warranty on all products. Our chairs are built right and built to last.

INNOVATION LAB

Our Innovation Lab is a think-tank of designers, engineers, and our Research & Development team. Taking a collaborative approach, we study trends from both inside and outside our industry, identify gaps, and brainstorm how to bridge these. Then we develop prototypes, which, after many rounds of building, re-thinking, and testing, become innovative Nightingale products. Our research is both market-based and customer-based. Many of our best innovations have come from customers, clients, and employees saying aloud, "I wish I had a chair that..." In the Innovation Lab, we respond to real-world problems and new customer ideas by asking "Why not?"

NIGHTINGALE U

We believe that life is about constantly experiencing and learning. In keeping with our commitment to change, innovate, and inspire, we developed Nightingale U, our in-house learning facility for employees, industry-personnel, and interested members of the community. Teaching everything from how to make a chair with the least environmental impact (like our IC2, which is 98% recyclable) to how to minimize stress on the legs through a sloped seat and a thick memory foam, Nightingale U strives to develop future talent that will help lead the future of product design, one seat at a time.

The SXO

The SXO™'s simple design and uber-cushioned Enersorb™ foam seat helps you concentrate on your work, free from aches and distractions.

Model	Description	1 Mystic
6100	Mid Back	2026
6100D	Mid Back with Headrest	2174

STANDARD FEATURES

- ABLEX™ patterned mesh back provides generous lumbar support and dynamic back movement. Air flows freely through this breathable mesh for added comfort.
- Synchronous knee-tilt swivel mechanism with built-in seat slide depth adjuster, infinite position tilt-lock, pneumatic seat height adjustment and side tension control.
- Armrests move up/down, in/out, complete with lockable swivel pads.
- Energy absorbing dual density ENERSORB™ seat foam reduces sitting fatigue.

- Waterfall seat design that gently slopes away from the legs, minimizing pressure on the thighs and promoting good posture.
- Patented all-purpose back storage pocket built into the frame allows convenient storage for company mail or personal items.
- Black mesh with frame, arms, base and trim in graphite finish.

GENERAL INFORMATION

- Upholstery: 1 yd/chair
- Patented Design.

We Bring Our A-Game

Nightingale was named one of Canada's 50 Best Managed Companies because of our commitment to quality products, to environmental sustainability, and to our employees. We are always forward looking, setting industry standards rather than following them. Our drive to push the envelope of current chair technology and our sleek design styles allow for a product that looks just as good as it feels. The efforts of all our employees, from customer care and marketing down to the manufacturing plant have built our success as a company that is personable, reliable, and caring. Nightingale has received numerous design awards from prestigious organizations across the globe. These awards recognize the superior quality in both the design and engineering of our chairs.

Our Chairs are Better

- Top quality suppliers are held to our rigorous testing standards
- Limited Lifetime Warranty
- Designed to meet ANSI/ BIFMA Criteria

Not one to blindly follow trends, Nightingale's designs envision how office, guest, lounge, task, and executive chairs can serve multiple purposes and adjust to suit each individual user's needs. We stay ahead of the curve with innovative features that will spark industry change. Our philosophy of design is always holistic, focused on comfort and ease of use. We produce stylish, design-forward chairs that will elevate the aesthetic of any space and match the sensibilities of the user. For Nightingale, good design is about bridging real-world gaps: building chairs for people, not just gallery displays. We view the design as a constant evolution: for us, each chair is only the beginning.

TEXTILE DISCLAIMER

Nightingale only upholsters with top quality materials.

Nightingale recommends ordering product samples at www.nightingalechairs.com/textiles before final purchase to get a more accurate representation of color. However, due to slight variations in dye lots, there can be slight color variations to received product.

Nightingale has made every effort to represent the colors and textures of these textiles, vinyls and leathers as accurately as possible. However, we cannot guarantee 100% accuracy, due to variations that occur in the printing process.

PRODUCT DISCLAIMER

Nightingale reserves the right to make changes in product design, construction or detail, and to discontinue any product or material without notice.
