## WOODBIDGE STANDARD FINISHES

It is easy to determine what finish(es) are standard and available on any Woodbridge item.

Simply refer to any item in question where it is listed in the price list. Any and all finishes in which an item is standard will be enumerated there. In addition, every item in the Woodbridge line is photographed in the catalog or on the website in all of its standard finishes. In other words, we photograph each item in all of its available standard finishes. We cannot change a standard wood stain on any item for another wood stain.

Woodbridge uses a standard nitrocellulose lacquer. We offer a catalyzed lacquer option on any wood item. Catalyzed lacquer is a harder, more durable lacquer and is resistant to the adverse effects of liquids, including alcohol. It provides additional protection against penetrating marks and dents, but is not completely impervious to these marks. Catalyzed lacquer does not provide scratch resistant protection. There is no difference in the appearance or sheen level of an item finished in our catalyzed lacquer compared to our standard nitrocellulose lacquer. There is an additional charge of 25% (\$100 minimum) + four additional weeks for the catalyzed lacquer option.

## WOODBIDGE CUSTOM PAINT

Woodbridge can apply paint to most any wood item in the line. You may specify a Woodbridge paint, another furniture manufacturer's paint, or a paint manufacturer's color. The price for this custom paint option is denoted in this price list under each item. Woodbridge can apply varying levels of glaze, rub-through, or most any type of technique desired. Please be as descriptive as possible when submitting your order. If you have a sample of the color or technique that you would like on your Woodbridge piece, please send that sample along with your order. This helps insure order accuracy, and the sample will be returned to you. After surface preparation, the custom paint color is applied over the standard stain. The level of physical distressing inherent in the item's standard color will be part of the new custom color; we do not alter this feature. If multiple custom paint finishes are desired on one piece, the charge is additional \$100 for each additional paint color.

## TERMS AND CONDITIONS

**Order Acknowledgement:** All orders are subject to our approval before the order is accepted and entered. Woodbridge acknowledges all accepted orders in writing and the acknowledgement will be emailed or faxed to the Dealer. The order acknowledgment is the final expression of agreement between the customer and Woodbridge. An order can be modified only by a written change or reconfirmation.

**Order Changes / Cancellations:** Orders cannot be changed or cancelled after they have been scheduled for shipment. If customized orders have been initiated into production they cannot be changed or cancelled.

**Damage or Defective Product:** Woodbridge Furniture strives to deliver quality product and also recognizes issues may occur during delivery. To prevent delays to the customers, customers are to carefully inspect all items at the time of initial delivery. Obvious damages are to be noted on the delivery receipt. Should minor issues such as minor chips, finish rubs etc. be present, the receiver is required to deluxe and repair such minor issues as part of the inspection process at no charge. Basic pre-delivery preparation would include the following: leveling of item, adjustments of drawers and doors, scratches, handling dents, and minor touch up of finish/paints.

**Returns / Claims:** The consignee must handle damage claims with the delivering carrier. All claims resulting from defects, shortages, or errors must be made in writing including pictures where appropriate within 10 days of receipt. For damaged product, local repair would be the first avenue of choice. A repair quote should be obtained and sent to Woodbridge. No claims for the repair or servicing of merchandise will be honored unless Woodbridge has specifically authorized prior approval in writing. Please contact us at [claims@woodbridgefurniture.com](mailto:claims@woodbridgefurniture.com) for assistance.

Woodbridge is not responsible for damages or defects discovered during installation as all items are to be inspected upon arrival.

We cannot assume responsibility for any secondary delivery to and from your customer, as there are many touch points once item(s) are shipped from Woodbridge.

Returns of merchandise will not be accepted without an approved Return Authorization. **Returns as an accommodation will be charged a 25% restocking charge.** If not returned in original cartons, a \$55 re-carton fee will be assessed. All items must be received in good condition.

**Pricing and Specifications:** Pricing is subject to change without notice. All prices are FOB Woodbridge Furniture's Thomasville, NC warehouse. All sizes, weights, and cubic feet of furniture are provided as a guide and are subject to variations.

**Payment / Terms:** Standard Terms are either pre-payment or Net 30 for approved credit customers from date of invoice. Interest is charged at 1.5% per month on past due balances. No shipments will be made if account has a past due balance. **A Credit Card fee of 3% will be assessed on all credit card transactions.** We do accept e-checks.

**Manufacturing Techniques:** As materials and methods are developed which will result in an improved product, we reserve the right to apply these materials and methods without notice.

**Care of Wood Furniture:** Our finishes are protected by several coatings of lacquer, which will last indefinitely under controlled conditions. Lacquer coatings are not invulnerable to direct sunlight and heat, scratches, dents, or spills of alcoholic beverages. Avoid using silicone waxes, oil-based polishes, or lemon oils. Keep your furniture shielded from daily exposure to direct sunlight, as the sun may cause deterioration of the original finish. Clean your furniture with routine dusting using a damp cloth and then dry the surface immediately using a dry, soft cloth. Always wipe in the direction of the wood grain.

**Marble / Stone / Granite Disclaimer:** Marble, Stone, and Granite are products of nature and no two pieces are alike. There will be unique variations in color, and each piece has its own distinctive beauty. Clean stone surfaces with a soft cloth, using a mild liquid dishwashing detergent and lukewarm water. Avoid using a cleaning product containing vinegar, lemon, or other acids. Do not use scouring powders or creams, as they contain abrasives that may scratch the surface.

**Leather Disclaimer:** Leather is a natural product produced as a byproduct of animal hides (mostly cows, steers, and water buffalo). Due to the life-style of the animals, leather will always have natural markings such as brands, insect bites, scars, wrinkles, stretch marks, abrasions, and burns. These markings are not considered defects but rather an indication of true genuine leather.

**Woven Cane Disclaimer:** Natural cane is a hand woven product that comes in varying patterns and colors. Frays or ends of the rattan fibers may appear in the weave. Irregularities in shape are not considered defects but rather an indication of the authentic nature of the material. Fine materials such as silk may pick when brushed against natural cane and can occur when sitting in a chair made of this material.

## WOODBIDGE OUTDOOR

- Woodbridge's Amalfi, Saint Lucia & Carlyle outdoor collections are constructed of extruded aluminum frames with an electrostatically applied powder coat finish and are corrosion resistant and extremely durable, however finished may age from exposure to natural elements and periodic maintenance is required to preserve the finish.
- Woodbridge's woven wicker is made of 100% virgin polyethylene and has no added "fillers." This polyethylene will remain pliable and retain its shape, UV inhibitors are added to protect from sun damage and prevent excess fading.
  - o An independent lab performed an Accelerated Weathering test on our outdoor synthetic woven material
  - o The test duration was 5,000 hours and during that time the material experienced little to no degradation across multiple variables
  - o The highest general appearance is 10 and anything above 6 is barely if at all, noticeable to the naked eye. Our material at the end of the testing was above 9.
  - o In general terms, this test simulation would be comparable to ~ 5 years upon which our material showed little to no degradation

- Woodbridge’s Jupiter, Bellevue & Elements collections are constructed of Grade A, sustainably forested teak wood. Teak requires periodic maintenance and changes in color are normal and should be expected to occur over time. There will be variation, including color, knots, texture and grain pattern within one piece of furniture. Items can experience small movements and cracks as the wood acclimates to its environment. These cracks are referred to as “checks” and are not considered faults or defects.
- Product that is in use in a coastal environment may experience additional demands on the surface finish due to the salt air. A weekly or biweekly cleaning of product is recommended to clean away any buildup of salt residue and the possibility of oxidation.

#### Cushion Cores

- Our COM or graded Sunbrella & Outdura cores are made of 1524 density outdoor foam wrapped in rolled fiber and encased in sonic welded ticking, which is water resistant and helps any liquid not soak through into the foam. Our stock cushion cores consist of Urecel Quick Dry Foam (QDF) which is a reticulated, porous foam. QDF is treated with an antimicrobial to prevent odors and fungus and dries 100% faster over an hour than a standard outdoor foam. These cushions are constructed with an open weave mesh bottom to allow for optimal drainage that is both quick and prevents pooling and mold.
- We use fiber wrapped foam for all seat cushions, and we may use blown fiber, rolled fiber, or a thin piece of foam for back cushions depending on the item itself. Typically, deep seating (like sofas & lounge chairs) have fiber wrapped foam seats and blown fiber backs. Back cushions in dining chairs or bar stools would have a thin foam insert in the back cushion.
